

Welcome Pack

Welcome to CS Digital Marketing

Hi [Name], great to have you on board. Here's everything we need to get your website built. Once you've sent the bits below and payment's in, I'll have a first version back to you within about a week.

What happens next

1. You send the details below + payment.
2. I build your site (about a week).
3. You review, we do up to two rounds of tweaks.
4. We go live.

1. Your business details

- Business name (exactly as you want it shown):
- Best contact phone + email (for the website):
- Business hours:
- Short description of what you do (a sentence or two, or I'll write it):

2. Your services

List the services you want pages or sections for (e.g. blocked drains, hot water, gas fitting):

3. Areas you cover

List the suburbs/towns you service (these become your area pages):

4. Branding and photos

- Logo: attach it, or tell me you'd like a simple text logo made.
- Brand colours (if you have any):
- Photos: send any photos of your work, team, vehicles, or premises. The more the better.
No photos? Let me know and we'll sort placeholders to start.

5. Domain name (pick 5, in order of preference)

I'll register the best available one as part of your package. Examples: yourbusiness.com.au, yourbusinessmandurah.com.au, etc. 1. 2. 3. 4. 5.

6. Anything else

Existing website or socials, examples of sites you like, anything specific you want:

Payment

\$750 to get started, payable in full. The payment details are on your invoice (attached). After your first year, it's \$300/year for hosting and upkeep, invoiced at renewal (cancel anytime before then).
