

Invoice Template (Website Build)

Copy this per client, fill the [brackets], and send as a PDF or in the email body. Sole-trader note: include your ABN. If you are not registered for GST (turnover under \$75k), this is a plain invoice, not a "tax invoice", and you do not add GST. Once you register for GST, change the heading to "Tax Invoice" and add a GST line.

How to use it

- Send the **deposit invoice** (\$375) the moment they say yes, with your bank details. Get the deposit before you build.
- Send the **balance invoice** (\$375) when the site is ready to go live.
- Keep invoice numbers sequential (2026-001, 2026-002...).
- Attach the Website Terms (see WEBSITE-TERMS.md) or send them together in the Welcome Pack.
